BILIOUSNESS

"I unhesitatingly add my testimony to the great benefits to be derived from Simmons Liver Regulator. I was afflicted for several years with disordered Liver, which resulted in a severe attack of Jaundice. I had good medical attendance, but it failed to restore me to the enjoyment of my former health. I then tried the most renowned physicians of Louisville, Ky., but all to no purpose, whereupon I was induced to try Simmons Liver Regulator. I found immediate benefit from its use, and it ultimately restored me to the full enjoyment of health."—A. H. SHIRLEY, Richmond, Ky....."I most cheerfully recommend it to all who suffer from Bilious Attacks or any disease caused by a disarranged state of the Liver."....W. R. BERNARD, Kansas City, Mo.

PIANOS.

GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, rosewood finish—finest imported double repeating action—three strings throughout of best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL not affected by extremes of climate. This will be be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.

Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, drys out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $200—slipping away—pity them.

We guarantee our pianos ten years. 200 styles. We have put our prices at lowest bed-rock for Cash.

A $600 Piano for $259.50; a $900 Piano for $297.50; a $1200 Piano for $375.50; a $1500 Piano for $475.50.

Upright Cabinet Grands, with stool and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occassionally have good second-hand pianos, made over at $100 to $300, which we take in part payment for our own. Write or call for catalogue, free.

LIABILITY TO INSANITY.

No Such Thing as the "Insane Temperament"—Nervous Energy.

I doubt very much if there is any such thing as the "insane temperament." This is an organic constitution characterized by certain mental and physical qualities which is uniformly met with in those who are predisposed to insanity. At least no such temperament is recognized by physiologists or alienists of the present day. Systematic writers generally admit the existence of four distinct temperatures, the sanguine, the lymphatic or phlegmatic, the choleric or bilious, and the nervous. Every physician who has much to do with the treatment of insane persons has witnessed instances of mental derangement not only in individuals of each one of these temperaments, but in all their possible combinations. Indeed, it is rare to find a person in whom any one of the temperaments mentioned exists in its pure and simple form, those of mixed temperaments being greatly in the majority.

Perhaps the nervous temperament is the one which is the most frequently met with uncombined with any other temperament, or at least so greatly predominating as to obscure any other that may be present. This arises from the fact that it is the only temperament that can be acquired by mode of life. If there is any temperament which of itself predisposes to insanity it is the nervous. It may be well, therefore, to point out some of its chief characteristics.

The manifestations of nervous energy are markedly prominent, and give peculiar impress to the whole body and mind. The countenance is usually pale and the features thin and sharp; the pulse is quick, small and frequent, though not weak; the respiration active; the chest and muscular system are generally not largely developed; the skin is dry and rough and the digestive functions are performed irregularly. In consequence of the comparative weakness of the muscles, persons of this temperament easily become fatigued; though, owing to the activity of the nervous system, they quickly rally.

Prompt to form opinions and to arrive at conclusions, the subjects of the nervous temperament are not remarkable for stability of purpose. Their intellectual operations are rapid and brilliant, but at the same time not often persistent. Variety is constantly sought for, and the mental efforts, like the physical, are, as it were, spasmodic, full of energy while they last, but soon yielding to others.

Women were formerly much more frequently the subjects of this temperament than men, but owing to the constant effort to get rich manifested by the male sex in recent times, and the consequent extreme development of the emotional system and of certain faculties of the intellect, it is now far more common with men. Indeed, I am not sure but that in civilized communities, especially in the large cities of the United States, it has not become the predominating temperament. The man who day after day is kept upon a mental rack by that most harassing of all the emotions—anxiety will inevitably undergo such psychical and bodily changes as will change him from any other original temperament to the one under notice. Of all the temperaments, it is particularly easy to be acquired. It is the outcome of civilization and refinement, and probably but for these agencies would never have arisen. Among barbarous nations it is almost unknown, and savages never exhibit it; but it is common enough in London, Paris and New York and in men who, if they had lived a hundred years ago, would have been as phlegmatic as the most typical Dutchman.

The diseases which are most apt to occur among individuals of the nervous temperament are those which concern the nervous system. Thus, we have the various forms of neuralgia, certain affections of the spinal cord, hysteria in all its protean varieties, St. Vitus' dance, catalepsy, ecstasy and insanity of all types. In fact, the nervous temperament itself is, if strongly developed, almost a pathological condition, the sensibility is so acute, the capability for receiving mental impressions so decided, and the system is so readily thrown into disorder from slight causes that the temperament in question may often be considered as the first manifestation of disease.

Persons of the nervous temperament are very subject to diseases which exist only in their imagination or which, being slight, are exaggerated by the constant habit of introspection in which they indulge. They are thus very frequently rendered seriously ill by the morbid attention they give to symptoms which are often by no means abnormal.

But although the existence of the nervous temperament in a person predisposes him or her more than does any other temperament to mental aberration, it is not to be supposed that it possesses this power to the exclusion of the other temperaments. The sanguine, the lymphatic and the choleric are by no means devoid of influence in this direction. Indeed, the latter is not far behind the nervous as a predominant temperament in insane persons.

There is, therefore, no temperament which can par excellence be regarded as the insane temperament. Persons of all temperamental types are liable to insanity. Individual peculiarity is a factor not to be disregarded. Some people would never become insane, no matter what misfortunes might visit them or what mental shocks they might suffer, while others might lose their minds upon the supervention of the slightest possible disturbing event. One man will suffer the loss of family and friends and money and his mind will retain all its clearness and vigor, while another will go into his barn and hang himself when he learns that butter has fallen two cents a pound. - Dr. William A. Hammond in New York Mail and Express.

Novel Method of Communication.

It is related that Histæus, anxious to order Aristagoras to revolt, as the only safe way took the truest of his slaves, shaved his head, and, pricking the message upon his scalp, waited until the hair grew again, when he despatched him to Miletus, telling him to tell Aristagoras "to shave his head and look thereon." This was one way to communicate an important message.—New York Commercial Anvertiser.

The Story of a Werewolf.

A noble gentleman of Brittany, in high favor with the king, married a lovely lady. There would have been no limit to their happiness but that three days out of every week the gentleman mysteriously disappeared. When pressed by his wife for an explanation he confessed that he was a Bisclaveret or werewolf, and for three days in the week was condemned to assume a wolf's shape. The lady was sore troubled and determined to rid her self of so objectionable a husband. Learning that if the lord's clothes were stolen after the metamorphosis was effected he could not resume his human shape, she and a false cavalier who loved her watched him and got possession of the castoff garments. As from that day the husband was no more seen she married the cavalier.

One day the king was out hunting when a wolf that had been sore pressed by the hounds made its way to him and looked at him with so pitiful and human an expression that the king's heart was touched. He spared it and brought it home to his court. The animal proved gentle and tractable and became a great favorite. But one day when the false cavalier came to court it jumped upon him with a wild cry and bit him severely And when some days later the wife claimed an audience with the king the wolf flew at her, too, and bit off her nose. Swords were drawn and the wolf would have been killed, but that a wise man counseled the prince to find out first what could be the reason of the wolf's grudge to the lady and her husband. And, being threatened with imprisonment, the lady, terrified, confessed all she knew, and when the clothes of her former husband were given to the wolf he was transformed into human shape and the king rejoiced to recognize his old favorite. The guilty pair were ignominiously banished. They lived several years and had many children, all the girls being born without toes.—American Notes and Queries.

Plain Lectures on Health.

If the women's colleges would add to their course of study a series of very plain lectures on the care of health, it would be worth any amount of Anglo-Saxon literature on political economy. Nothing would make a school more popular than to supplement such lectures with strict personal care of the habits of each pupil. It would become a "beauty school" in the full sense of the word, as celebrated for sending out young ladies with brilliant complexions as Harvard for its athletics. And why is it not as necessary for young ladies to have their faces chased as to have their manners and their grammar corrected? Now, the most high minded and fastidious of Lady Sylvias has a slender body, which works over daily not less than seven pounds of food and drink, or ought to, and throws out no less than five pounds of waste by its great ducts, the bowels and kidneys, and its millions of needle ducts in the skin. Really this is very terrible for discussion, and I warmly agree with her majesty Victoria in thinking stomachs entirely unfit for mention to ears polite. But thousands of women are losing beauty and dying of painful disease for want of knowing the full significance of their internal economy and the care they owe it.—Shirley Dare.

Painting the Baby's Face.

A letter from Paris informs us that the doctors are again at war with silly mothers belonging to the fashionable circles. The latest fanaticism of La Mode is to apply the horrors of face painting to little children. In the public gardens babies of 3 years old may now be seen whose eyebrows have been blacked or dyed by their senseless mothers. Other anxious parents, distressed at the vulgarly ruddy and rustic hue of their children's cheeks, carefully powder them before sending them forth to meet the gaze and criticism of the world. Little coquettes of 10 years are not permitted to go abroad until the regulation black stroke has been painted beneath their eyes. The doctors warn the mothers that when the children thus barbarously treated reach the age of 16 they will have a colorless and ruined complexion, to say nothing of the injury to health, which is an argument less likely to produce much effect.—Pall Mall Gazette.

Who Are the Lucky Ones?

After all, what is luck? She is the handmaiden of every man at one time or another, and in one form or another. She is ever by one's side, ready to give a helping hand. The blind do not see her; the timid or irresolute decline to take her outstretched hand. The unlucky man is the man who forgets to strike when the iron is hot. The lucky man is the one who takes advantage of proffered fortune. Circumstances, it is to be confessed, throw more of such proffers in the way of one than another. But if one will follow the footprints of the lucky men of the world it will be found that at the points where they seized fortune at the flood there are tracks which show that there were many faltering and hesitating ones near by, any one of whom had within his reach the same opportunities as the fortunate one had.—Chicago Times.

The Doll Had It, Too.

There was a slight impediment in a little Boston girl's speech, and she had been "drilled" out of all patience by well intentioned teachers and friends. When she received a doll for a birthday present, she was delighted to find that by pulling out a green string a very passable "mamma" was produced. But the "papa" which followed the twitching of a white string was imperfect, and when the little mother discovered that her child had inherited her own infirmity, her heroic nature was shown. She lost no time in putting to account her own training, and pulling repeatedly on the white string, with an unfaltering hand, she said firmly: "Dolly, you must be trained till you learn to say that plainer."—Detroit Free Press.

Alphabet of Precious Stones.

Some one has got up an alphabet of precious stones as follows: Amethyst, beryl, chrysoberyl, diamond, emerald, feldspar, garnet, hyacinth, idocrase, kyanite (more commonly cyanite, a blue mineral), lynx-sapphire, milk-opal, natrolite, opal, pyrope, quartz, ruby, sapphire, topaz, uranite, vesuvianite (a species of garnet), water-sapphire, xanthite, zircon (a Cingalese stone.)—New York Sun.

Cannon Shooting Fifteen Miles.

Some important experiments have been made at the Shoeburyness school of gunnery in high angle firing. A London correspondent writes: Probably no step of recent years is likely to lead to greater results, for if the experiment should be repeated with the same success, it is undeniable that war ships will have to be as fully protected on their decks as they are now on their broadsides. The experiments were made with the 9-inch or 23-centimeter gun used as a howitzer. An elevation of 37 degs. was given and battering charges were used with Palliser shells. Out of four shots three fell within a space of 500 feet by 80 feet, representing the deck of a first class ironclad, and the range attained was twelve miles!

Now, if it be really possible, three times out of four, or for that matter once out of four times, to throw a nine inch shell upon the deck of a ship in midchannel between Dover and Calais, another proof will have been given that in the tedious duel between gun and armor the gun has much the best of it. What is very important, too, is that the heavy charges and the high angle did not strain either gun or carriage in the least, and one of the officers present has said that he believed the gun would stand 45 degs. of elevation without injury, while with 42 degs. a range of fifteen miles would be secured. Now, as fifteen miles, a ship is "hull down," so it comes to this, that we can throw a nine inch shell on to the deck of a ship before we can see it! Surely this is the most marvelous thing yet attempted in gunnery, which of later years has been so fruitful in surprises.—Army and Navy Register.

About South American Musquitoes.

Some ludicrous stories are told about adventures with the musquitoes. I have been solemnly assured that very often when they have attacked a boat and driven its captain and crew below they have broken the windows of the cabin by plunging in swarms against them and have attempted to burst in the doors. Although this may be something of an exaggeration, it is nevertheless true that frequently horses and cattle, after the most frightful sufferings, have died from musquito bites on board the vessels. Not long ago a herd of valuable cattle were being taken from the United States to a ranch upon the Magdalena river and became so desperate under the attacks of the musquitoes that they broke from their stalls, jumped into the water and all were drowned. Passengers intending to make the voyage usually provide themselves with protection in the shape of musquito bars, head nets and thick gloves, and when on deck are compelled to tie their sleeves around their wrists and their pantaloons around their ankles.—American Magazine.

How the Paraguayans Fought.

It was not alone the Paraguayan men and boys who had to bear arms in that struggle. "Food for powder" of that kind was soon exhausted. Then came the women's turn to fight, and, indeed, from an early period of the war, mothers, wives and sweethearts had donned the soldier's uniform and fought bravely in the ranks with those they loved.

After a certain battle, when the burying parties were busily pursuing their grim work, they came upon the bodies of two loving companions in arms, clasped in a last embrace.

The head of one rested on the other's breast, while an arm was closely drawn round him, the disengaged hand being raised to stanch the life blood flowing from a cruel gash. They looked like two true comrades whose friendship death itself had not been able to sever.

That, however, was not all their history. A wounded mother, in a soldier's guise, had dragged herself to the spot where her son lay bleeding, and there, regardless of her own fatal injuries, had placed his head upon her breast, and tried to soothe his last living moments, as she had done his first on earth.—Winthrop's "Reminiscences."

Evolution of the Colored Race.

The negro is changing in appearance and losing some of the birthmarks peculiar to the African race. The new generation is showing the effects of a higher culture. Especially is this noticeable in the towns where contact with the whites shows its effect. The flat nosed, kinky headed negro is passing away and becoming an unknown race. All the colored children, no matter how dusky in hue, show the change. Among the females, long hair of that peculiar woolly appearance, hangs in long braids or curls down their backs. Aquiline noses and smaller mouths with thinner lips are the rule. For years, and in fact ever since their freedom, the negresses have endeavored to do away with the short kinky hair bestowed upon them by their ancestors. Much of their spare change is invested in various tonics and invigorators, and the long attention and care bestowed upon it is shown in their descendants. The South Georgia negro is an evidence of evolution, the survival of the fittest.—Atlanta Constitution.

Solidifying Petroleum Fuel.

Experiments are still being made under the direction of the Russian government, with the view of finding a process, at once practicable as well as desirable on the score of economy and cleanliness, of solidifying the petroleum used as fuel. According to the report made by Dr. Kauffmann, who has had the principal charge of these experiments, a successful method of accomplishing the desired results consists simply in heating the oil and afterward adding from 1 to 3 per cent. of soap. The latter dissolves in the oil, and the liquid on cooling forms a mass having the appearance of cement and the hardness of compact tallow. The product is hard to light, burns slowly and without smoke, but develops much heat, and leaves about 2 per cent. of a hard, black residuum.—New York Sun.

An Automatic Novel Reader.

It is suggested that, among other things, the phonograph may be used as an automatic novel reader, with each character speaking, as it were, in propria persona. That is, the phonogram will be produced with the various voices as in nature, all the inflections of passion, sorrow, sympathy, ridicule and sarcasm, and songs, etc., uttered to it originally by professional elocutionists, dialecticians and singers.—Chicago News.

SONOMA INDEX-TRIBUNE.

H. H. GRANICE - - - - - - - - - - - - EDITOR

SONOMA, OCTOBER 6, 1888.

Communications upon matters of local or general interest solicited.

Communications designed to call attention to any matter of limited or individual interest will not be inserted unless paid for as an advertisement.

The author's real name must accompany all communications, not necessarily for publication, but as a guarantee of good faith. This rule will not be deviated from.

JOHN CHINAMAN MUST GO, JOHN.

THE war waged upon the Chinese curse on this coast the past fifteen years has at last come to an end. The Scott Exclusion bill which passed both Houses of Congress a short time since received the signature of President Cleveland last Monday and is now a law. Under its provisions no Chinese laborers will be permitted to land on these shores whether they may have been prior residents or not. John is entirely excluded, and the poor white man will henceforth stand some show in this State in his struggle for an existence. For years the Chinese have slowly but surely been pushing the white mechanics and laborers to the wall on this Coast and had our Government not interfered it would only have been a question of time when our beautiful State would have become completely absorbed by the Mongolian host that has been pouring into the port of San Francisco by the thousands the past 30 years. Should the law be enforced strictly to the letter in a few years more Chinese in California will be a thing of the past, and in time their places will be filled by reliable white men and women, who will rear families in our midst and encourage American institutions. Under this new condition of things there will be less tramps, less chippies and less hoodlums, as our youth will in course of time have an opportunity to enter the factories and workshops to fill the places made vacant by the Chinaman, who for years has barred their way for making an honest and respectable living. Chinatown in our towns and cities will likewise disappear and with it the opium joint. The miserable habitations found in these unsavory precincts will give way to cosy cottages occupied by thrifty working people and every town in the State will receive an impetus by the substitution of white labor and a white man's home for Chinese labor and a Chinaman's miserable hovel.

LOW TAXES.

BY reference to the proceedings of the Board of Supervisors, which appears in these columns, it will be seen that the rate of taxation in Sonoma county for the fiscal year 1888-9 has been fixed at the exceedingly low figure of 62.6. This added to the State levy of 50.4 will make the total levy for State and county purpose only $1.15. This exceedingly low rate speaks well for Sonoma county and we doubt if there is another interior county in the State that can boast of a lower rate. There are two reasons why taxes are so low in Sonoma county. During the past year there has been an enhancement in property valuations of something over $2,000,000. This, together with a careful and economical administration of the affairs of the county, has brought about this result. There is no county in the State that offers better inducements to the home-seeker. With the finest climate, beautiful scenery, the best and most fertile of soils, a never-failing rainfall and low taxes we challenge comparison with the most favored counties of California.

P. D. WIGGINTON has been unanimously selected by the Executive Committee of the American party to fill the vacancy occasioned by Judge Greer's declination of the Vice-Presidential nomination.

A Mexican woman, about fifty years of age passed through town yesterday in charge of Under Sheriff Vanderhoof of Santa Rosa en route to the Napa Asylum.

Weyl's Cash Grocery Store is selling groceries at the very lowest rates. Call and be convinced. +

Col. Donahue's Plans.

The continued absence of Colonel Donahue in the East is still a matter of speculation in railroad circles. The *Bulletin* in commenting on this fact says: "A local railroad man who has wide acquaintance and is a shrewd observer, says the result of the negotiations of Colonel Donahue East regarding which there has been much talk, will be about as follows: He asserts that his information is from the most reliable sources. The Donahue line, according to the plan outlined, will be pushed rapidly on from Ukiah to Eureka, the scheme being to open up and develop that rich district in advance of the Southern Pacific people, who have branches heading that way. A rich Eastern corporation (presumably the Chicago and Northwestern) has agreed to take bonds of the Donahue line and back the construction to Eureka. In return, Colonel Donahue and the other owners are to grant this Eastern corporation waterfront on San Francisco Bay and connecting railroad privileges whenever they should be asked for. The road to Eureka is known to have long been a cherished plan of Col. Donahue. The outlet on the bay is the most important feature of the Donahue line, and it would be of the greatest value to any new overland line."

Keeping Fresh Grapes.

C. A. Green, in an Eastern wine paper, in discussing this interesting subject, says: If you have a cool, dry cellar or fruit-room and the best keeping varieties, the question of keeping grapes is a simple one. At the great vineyards the grapes are brought in from the vineyards in long, shallow picking boxes, holding perhaps forty pounds, which are stored one above the other in fruit houses and left there until wanted for market or other purposes. Months after they come out as fresh as when picked. If the room is very damp, or the grapes are placed in too large or deep boxes, they will mould. Thick-skinned grapes, like the Agawam, Isabella or Cawtawba, keep best; while such tender-skinned varieties as the Concord are the poorest—yet I have kept Concords up to January by packing in dry sawdust in market or bushel baskets. A simple method is to place grape leaves between layers of grapes, as you pick them, or sheets of paper. This prevents the clusters from pressing against each other too closely, thus preventing mould and decay. Handsome clusters are preserved by cutting a piece of the vine with it, and placing one end in a bottle of water, also by covering a stem of the cluster at the point where cut, with wax. Remember too avoid too dry, too damp, and too warm rooms. Grapes should be kept as near the freezing point as possible, and not freeze. While immature grapes are always destroyed by freezing. Patriek Barry says that those fully ripened are not destroyed. He has had ripe Delawares freeze without injury.

E. P. Roe kept Cawtawba, Isabella, Diana and Iona by picking on a clear day, using grape soissers so as not to handle much, removing all imperfect berries and placing in clean, dry earthen jars, in layers a bunch deep, and filling the jar in this way. Place a double sheet of paper over the top layer and put on the lid. Strong unbleached muslin is passed entirely over the lid, or cover of the jar. After the covering has fully dried and hardened the jars are buried on a dry knoll beyond the action of the frost, a stake being placed over each jar to locate it accurately.

Grand Jury Drawn.

The venire of Grand Jurors was returned in Department 1 of the Superior Court Monday, and the following Grand Jury was impanelled: James Sheridan, Henry Weyl, Wilfred Page, Wiley Caughran, Henry Hubbard, Harvey Gregory, Thomas B. Miller, Christian Stahl, William C. Andrews, D. D. Phillips, S. O. Heaton, Leander G. Ellis, W. T. Mears, L. A. Murdock, A. W. Riley, William Board, R. R. Givens, A. McFadyen, J. W. Warboys. Leander G. Ellis was appointed foreman.

Prudence! Prudence!

In medication, as in aught else, prudence should be our guide. Yet thousands cast it to the winds. Every new nostrum finds its patrons, the medical empires of every false school have their gulls. Every change in the gamut of humbug is rung successfully—for a time at least—the notes being furnished by the credulous. In happy contrast to the many advertised impostures of the day stands Hostetter's Stomach Bitters, now in its third decade of popularity, approved and recommended by physicians endorsed by the press of many lands, sought and prized by invalids everywhere. It is an ascertained specific for and preventive of malarial diseases, chronic indigestion, liver complaint and constipation, checks the growth of rheumatism and neuralgia, is a peerless invigorant and useful diuretic. Nervous people benefit by it.

Consumption Surely Cured.

TO THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and postoffice address. Respectfully, T. A. SLOCUM M. C., 181 Pearl st. New York.

OLIVE GROWING.

What Soil is Best and What Varieties are Most Profitable.

Leon Bonsquet of San Francisco is a native of the South of France, where the olive is extensively cultivated, and was for a long time engaged in the production of olive oil. He is an elderly gentleman of much intelligence and courtesy, and, in response to inquiries about olive culture, he answered as follows: "The olive needs rich soil, and that should be the first consideration in selecting a site for an orchard. It does not matter much whether the land is level or hilly, so long as it is well drained. Stagnant water is bad for the roots. It is a great mistake to suppose that the olive should be planted in poor soil in preference to that which is rich. While the tree will grow on very poor, dry ground and bear some berries, it will not flourish nor give such good returns as on rich ground. It makes large roots, and the fibres keep near the surface where the soil is favorable. The variety preferred for oil in France is the Picholine. Its berries are small, and for that reason not well adapted to pickling, but it makes a good pickle so far as quality is concerned. For pickling alone, varieties are planted that have large berries. If one were planted for both oil and pickles, such a variety as the Mission is described to be would be suitable. The variety is not known in France. The foothills are well suited to olive culture, and the foothill region might give a little better quality of oil than the valley. But the valley lands are well adapted to the tree. The trees should be planted at least twenty feet apart, and twenty-five feet is better. December is the best month for planting. In the hills a little irrigation is advisable for the first year or two, but after that no irrigation would be needed. So long as there is a tariff on foreign oil, it would pay better to grow olives for oil than for pickling. In France the olive is grown mainly for oil, as the oil is used for a great variety of purposes by everybody. A twelve-year-old tree should yield 250 pounds of olives, which would make about five gallons of oil. In France the oil is worth about $1 20 a gallon, sold in quantity. There is no more profitable tree there, and it pays better than the vine."—*Marysville Appeal.*

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day. +

A WOMAN'S WAY.

A Startling Business Proposition.

A little over six weeks ago Mrs. Fowler of 327 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, about which she had heard so much recently, would have in cases of dyspepsia and sick headache. She was assured that in most cases it would relieve both. She was, however, so incredulous that finally the druggist gave her a bottle, not to be paid for unless it effected a cure. A proposition so startlingly practical has seldom, if ever before, been made. The following just received is the convincing conclusion, and tells its own story:

San Francisco, February 8, 1888.

DEAR SIR: I write to admit that, notwithstanding my misgivings, Joy's Vegetable Sarsaparilla did all that you promised. I had tried so many prescriptions, to no purpose, that I had come to believe nothing would relieve my dyspepsia and sick headaches, but I have not had a return of either since I commenced taking it. I believe I am permanently cured, but will, out of an abundance of caution, continue to take it regularly for a while yet. You have my permission to make this public, for it is my belief that a remedy that will cure dyspepsia and prevent sick headaches should be generally known. Respectfully,

Mrs. M. Fowler,
327 Ellis street.

A LUCKY TRIAL.

DEAR SIR: It affords me great pleasure to send you this voluntary statement of my experience in testing the merits of Joy's Sarsaparilla. For the past five years I have been troubled with an exceeding[ly] sluggish liver, and within the past two years it has brought within its trail a thoroughly disordered stomach, including loss of appetite and distress after eating, pains in the back and kidneys, and boils around my neck and face. I have tried several remedies which are advertised as specially for the liver, and never could get more than temporary relief of about a week or two. I was recommended to try a bottle of Joy's Vegetable Sarsaparilla as a test, and while taking the first bottle I became convinced of its merits for I could feel it was working a change in me. I have taken five bottles, and during that time my troubles have left me. Everything is working full and regular, in fact it has cleansed, purified and braced me up generally. I feel like a new man. You are at perfect liberty to use this as you see fit, or you can refer whom you please to

Chas. Lea,
With Beamish, corner Third and Market streets, San Francisco.

Ask for Joy's Vegetable Sarsaparilla.

One pint of the juices of Vegetable alterative peculiar to California, combining the most effective liver and kidney remedy, blood purifier, stomach regulator and vegetable laxative in existence. All druggists. $1 per bottle; 6 for $5.

NEW TO-DAY.

SCROFULA

Is that impurity of the blood which produces unsightly lumps or swellings in the neck; which causes running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or "humors;" which, fastening upon the lungs, causes consumption and death. It is the most ancient of all diseases, and very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, has proven itself to be a potent and peculiar medicine for this disease. If you suffer from scrofula, try Hood's Sarsaparilla.

"Every spring my wife and children have been troubled with scrofula, my little boy, three years old, being a terrible sufferer. Last spring he was one mass of sores from head to feet. We all took Hood's Sarsaparilla, and all have been cured of the scrofula. My little boy is entirely free from sores, and all four of my children look bright and healthy." W. B. ATHERTON, Passaic City, N. J.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

Petaluma Pickings.

[Courier.]

The biggest watermelon of the season was grown by Jas. Lawrence near Stony Point. It weighed forty-six pounds and was sound and solid.

There are still about three hundred hands, big and little, at work at the Petaluma cannery, as the thousands of dollars distributed through this community weekly among the laboring class will testify. Though doing a large business, the goods sent out by his cannery are so much in demand and the raw fruit so abundant, that the company will be compelled to increase its working facilities and capacity another year.

The Salvation Army is having a jubilee here this week. About fifteen members from San Francisco and other points are here helping to make it a success. The vocal music is good but the band part, however well intended, would hardly lift a poor, wandering soul out of purgatory. That they have accomplished and will continue to accomplish some good we have no doubt, but their mode of work grates harshly on the ears of some of the orthodox churches.

Wonderful Cures.

W. D. Hoyt & Co., Wholesale and Retail Druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for four years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by E. Wegner.

NEW TO-DAY.

To the Voters of Sonoma Road District.

A false report having been circulated to the effect that in case I am elected Road Overseer of Sonoma Road District 1 will turn the office over to my son, I take this method to state that there is no grounds for the report whatever. The Republican nomination was given me unsought but should I be elected I will give my entire time and devote my entire energies to the duties of the office. C. F. CARMER.

Some fine catches of trout have been made in Sonoma creek between Glen Ellen and this place the past week.

Voters read the political cards in another column and select your candidates.

Judge Rutledge has been nominated by the American Party of this county for Superior Judge.

Don't forget to attend the fair for the benefit of St Francis' Church which opens on the 24th inst. at Union Hall.

Drunken tramps have been numerous on our streets the past week and several have been arrested and jugged by Marshal Sparks.

Another deer weighing about eighty pounds was killed back of J. L. King's place two miles from town last Sunday by Henry Weyl, Jr.

For Dry Goods, Clothing, Groceries, Hardware, Cutlery, and also everything kept in a general merchandising store go to S. Schocken's, north side Plaza, Sonoma. *

An entertainment and social dance will be given by Juanita Parlor, No. 20, N. D. G. W., at Union Hall on the evening of Friday, October 19th. Further particulars next week. *

Large numbers of teams loaded with grapes pass through town daily on their way to the various wine-cellars in this place, and in consequence Sonoma presents a lively appearance.

Hon. Calvin Edgerton will speak at Union Hall next Monday evening on behalf of Cleveland and Thurman. Mr. Edgerton is a brilliant speaker and it is expected a large audience will be present to greet him.

G. P. C. Sears' grape-crusher is in full blast and he is now crushing fifteen tons of grapes per day, the product of his own vineyard. He has added 40,000 gallons of new cooperage to his cellar for this years' crop of wine.

Rev. and Mrs. A. O. Winning desire to express their thanks to the ladies and friends of the M. E. Church for the reception and donation tendered them last Monday, and hope the friendly feeling that now exists may continue.

The tramp nuisance is becoming abominable in this valley, and never before were these gentry so numerous or so bold. Vineyards, orchards and vegetable patches are invaded by them and occasionally tribute is levied on convenient hen roosts.

The card of John M. Hendley, the regular Democratic nominee for Road Overseer of Sonoma Township, appears in this issue. Mr. Hendley is a resident of Glen Ellen, where he has lived for many years. He is a farmer by occupation, a good citizen and if elected will make a good roadmaster.

Jas. H. McNabb, editor of the Petaluma "Argus," and the Republican candidate for the Assembly from this district, was in town last Tuesday and Wednesday, and during his stay dropped in to see us. Mr. McNabb is an educated, pleasant and courtly gentleman, and in every respect worthy of the support of his party.

The Great Register was closed to voters at midnight Saturday. At that time 7913 names had been registered. This number was swelled to nearly 8000 names by registrations which had been made within the time specified by law in various parts of the county outside of Santa Rosa and which were not received by the County Clerk until the following Monday.

Mr. C. F. Carmer, the Republican nominee for Road Overseer of Sonoma Township, publishes a card in this week's issue denying the false rumor that in the event of his election he will turn the office over to his son. Mr. Carmer emphatically states that should he be elected he will devote his entire time to the duties of the office, reports to the contrary notwithstanding.

John S. Taylor, the Democratic nominee for Sheriff, inserts his political card in to-day's paper. The gentleman is exceedingly pleasing in his address and manner. For years he was in the stock-raising business in this county from which he retired a few years ago with an ample fortune. A man of fine address and unquestioned business integrity, he is one of the strongest men on the Democratic ticket.

A COSTLY JAIL.

The Grand Jury Recommends that It be Not Built.

The Grand Jury, which was in session in Santa Rosa three days this week, in their report filed in the Superior Court last Wednesday make the following sensible recommendation in regard to the proposed new jail: "We desire to commend the Board of Supervisors for keeping the county expenditures so well within the annual income. We find, however, that they have invested $10,200 of the county funds in a lot situated on the Plaza in the city of Santa Rosa, and that they have advertised for and received plans and specifications for the erection on said lot of a new County Jail. We also learn that the plans submitted, if adopted and carried into execution, will call for an expenditure that approximates close upon $50,000. As hereinbefore stated, we consider the existing jail accommodations, with such additions as suggested, adequate to the present requirements of the county, and would therefore earnestly recommend that the intention or purpose of erecting a new jail be abandoned, and the lot purchased for that purpose be resold."

Fired Upon by an Unknown Man.

On Sunday night last, George Estes Jr., in the employ of the Santa Rosa and Carquinez Railroad Company, while proceding from town to the railroad camp near Sears' place, was fired upon by an unknown man. The shot was fired at a distance of about fifteen or twenty feet and came dangerously close to the young man's head, as he distinctly heard the whiz of the bullet. Not wishing to be a willing target for another shot he took to his heels and ran for dear life never taking time to look behind until the camp was reached. The man's motive was undoubtedly murder and robbery as the Southern Pacific pay car had came up the previous day and a large amount of money had been paid to the employs of the company.

The Old Bridge Must Go.

The Board of Supervisors have ordered the removal of the old Clarke bridge across Sonoma creek. The structure is an old landmark, having been erected years ago. It has about outlived its usefulness and is liable to be washed away should a heavy freshet occur. It was on this account that its removal was ordered, as in the event of its being carried down stream it would be a menace to the fine iron structure, located a few hundred yards below, which was built last Summer.

A Relic of that Boom.

W. P. Wilson of this place brought suit last Tuesday in the Superior Court at Santa Rosa against the Sonoma Land Company to recover the sum of $221.52 for labor performed and material furnished in painting and papering certain houses belonging to the company. This suit is one of the relics of the great Verano boom which collapsed so suddenly last Summer.

Personal and Social.

Mrs. A. J. Haubert is visiting relatives in San Francisco.

Miss Annie Raschen is visiting in the city and Alameda.

Rev. Mr. Wikoff and family returned from Monterey last Saturday evening.

Miss Annie Church has returned from Oregon and is visiting friends in Santa Rosa.

Miss Harriet Ehrlich has returned from the city after an absence of six weeks.

Sheriff Colgan came down from Santa Rosa last Wednesday evening and returned Thursday morning.

Ex-Sheriff Tennessee Bishop was in town last Wednesday and Thursday circulating among his old Sonoma friends.

John S. Taylor, Democratic nominee for Sheriff of Sonoma county, was in town last Wednesday and Thursday making the acquaintance of Sonoma Valley people.

Rev. and Mrs. A. O. Winning were tendered a reception at their residence by the ladies and friends of the M. E. Church last Monday evening. A most pleasant evening was spent by those present.

Schocken always has on hand fresh groceries. +

Remember This.

Visiting Cards,
Funeral Notices,
Briefs, Transcripts,

And everything in the line of printed matter, at fair prices and in good style.

Glen Ellen Gossip.

A little legal business took place in our courts last week.

The proprietor of the Glen Ellen Hotel has removed his saloon from the hotel, and has leased a seperate building for the same. A good move.

Last Monday while H. F. Tarrant was picking grapes on his farm the knife which he used to cut the stems accidentally slipped and cut his wrist dangerously. The neighbors were called in and the copious flow of blood was stopped.

A prohibition rally took place in Peters' Hall last Thursday. The meeting was largely attended, about six persons being present, among whom were three voters. The speakers dwelt considerably on the wool question, probably not referring to the wool on the heads of Sullivan, Poppe or Peters.

We have a Prohibitionist in our midst who refuses jobs of wine-making for the reason that it interferes with the principles of his party. He takes the job, however, of picking the grapes that make the wine.

OLD TIMER.

County Cullings.

Two Indian children were shot and seriously wounded by an enraged white man at Healdsburg last Sunday.

G. H. Hayes of Guerneville, a contractor and builder, died suddenly in that town last Monday evening of heart disease.

Ex-Sheriff Tennessee Bishop has disposed of all the sheep on his ranch in the northern part of the county at $2.50 per head, and will leave for Arizona about the middle of November.

Sunday afternoon an old convent building in Petaluma in process of removal was blown down by the wind and demolished. Two young ladies narrowly escaped being crushed to death by the falling building.

The price of lumber is so low that the lumbermen of Guerneville are disposing of but little of their lumber. Saturday there was only one carload shipped from that place. At this season of the year the average number of carloads is not less than twelve per day.—Republican.

Fred. and John Mize were arrested near Santa Rosa Wednesday afternoon for attempting to shoot the former's father-in-law, W. Coffey. Seven or eight shots were fired between the parties, but the markmanship was miserable, and no one was hurt. The attack was the result of a quarrel which took place between Mize and Coffey the night previous. After the shooting the Mize boys endeavored to escape but were captured. They were held for examination with bail fixed at $2,500 each.

Report of the Grand Jury.

The Grand Jury which was in session in Santa Rosa the fore part of the week completed its labors last Wednesday. No criminal indictments were found as no cases were presented to the jury. The county farm and hospital were visited and the management of both is commended in high terms. The cleanliness and good appearance of both are noted. It is suggested that a six-year-old girl born out of wedlock be removed and given a better oppertunity than there is afforded. A windmill and a large water tank are asked for at the hospital.

The work in the office of the Recorder and Auditor is commended. It is mentioned that, from continual handling of the public, some of the plats of additions to towns are being injured and it is suggested that such documents be mounted on cloth.

The account books of the Auditor and County Treasurer are declared to be above criticism and the amount of county funds in the treasury and deposited with the several banks in Santa Rosa is stated to be $64,000.

It is recommended that the records be kept where they now are and that an addition be constructed at the west end of the "Hall of Records" to give needed room. The general management of the jail is approved, its cleanliness and the work of the Sheriff. At the same time the attention of the county supervisors is called to some needed repairs and it is recommended that a room be provided for female prisoners and boys.

The Supervisors are commended for economical management but issue is taken with them as to the advisability of constructing a jail on the lots purchased some time ago. It is recommended that instead of building on the lots, that they be sold and the money be turned into the treasury.

The general arrangement of all the offices, the filing of papers, and the ease with which documents may be found are favorably mentioned.

The Safest Medicine

To have about the house at all times is Simmons Liver Regulator. It will harm no one. It will benefit all who may have attacks of Biliousness, Dyspepsia, Headache, Constipation, or other ailments resulting from a disordered Liver or Stomach. Keep it always in the house, and you will have a family physician near who will save you many dollars and much suffering.

The Union Hotel is first class in every respect. *

BOARD OF SUPERVISORS.

They Fix the Tax Levy for State and County Purposes.

THE RATE ONLY $1.15—THE CLARKE BRIDGE TO BE REMOVED.

The Board of Supervisors met in regular monthly session at the Courthouse, Santa Rosa, Monday morning at 10:30 o'clock, with Chairman O'Hara presiding and a full Board present. The entire morning session was occupied with the reading of the minutes, and the consideration of Road Overseers' reports. At 12 o'clock an hour's recess was taken.

AFTERNOON SESSION.

The Board re-assembled at one o'clock, members present same as at morning session.

The following-named Road Overseers' bills were allowed and their reports received and placed on file: H. A. Russel, Fulton road district, $72; Victor Durand, Salt Point, $159.10; D. W. Long, Vallejo, $647.60; Thomas Furlong, Bodega, $73.96; C. J. Parkenson, Mendocino, $125.48; C. E. Rosebrough, Cloverdale, $118.85; A. K. Bell, Healdsburg, $103.34; Gallant Rains, Petaluma, $146.30; E. F. O'Leary, Analy, $303.98; A. J. Packwood, Russian River, $517.86.

On motion of Mr. Allen, a warrant in the sum of $225 was ordered drawn in favor of the Sebastopol and Petaluma Road Improvement Committee, Charles Soloman, the Secretary thereof, having filed the bill and necessary vouchers. The payment was a discharge in full of the county's obligation in the matter of macadamizing a portion of the county road between Sebastopol and Petaluma.

At 5:20 P. M., the Board adjourned until 7 P. M.

EVENING SESSION.

The Board reconvened at 7 P. M., all members present, Chairman O'Hara presiding.

In the matter of the tax levy, Supervisor Coulter moved as follows: "In the matter of the tax levy for the fiscal year 1888-9, I move that it be made the order of the Board that the rates be and they are hereby fixed and levied to be collected on each $100 valuation of the taxable property in the county of Sonoma, State of California, for the several hereinafter-named funds for the fiscal year 1888-9: Indigent fund, .03; bond fund, 07; general fund, 20.6; school fund, 12; road fund, 20; county rate, 62.6; State rate, 50.4; total rate of State and county, $1.13. And it is hereby made the further order of the Board that on each $100 valuation of the taxable property in the several hereinafter-named school districts thereby and is hereby levied special school taxes to be collected at the same time and in the same manner as the State and county taxes for the use of such school districts as follows, to-wit: Healdsburg school district, 7; Fulton, 15; Joneve, 20; Hearn, 21." The roll call on the foregoing resulted in its adoption by a unanimous vote.

The Board adjourned until Tuesday morning at 9 o'clock.

TUESDAY, October 2, 1888.

The Board met at 9 o'clock Tuesday morning. Present, Supervisors Allen, Coulter and Davis, Supervisor O'Hara in the chair, and Supervisor Connolly absent.

Mr. Allen moved that it be the order of the Board to instruct the Road Overseer of Sonoma district to remove the fences along the road from the old Clarke bridge to the new road leading to the iron bridge, and with the same material construct a fence on either side of the new road. It was so ordered.

Mr. Coulter moved that the Road Overseer of Sonoma district be instructed to take apart and remove the old Clarke bridge over Sonoma creek. It was so ordered.

A petition was received from citizens of Sonoma road district praying for a new road from the iron bridge across Sonoma creek at Sonoma to the town of El Verano, and for the abandonment of the old road from the old bride to where the same connects with Petaluma avenue. On motion of Mr. Coulter, the same was received and placed on file, the accompanying bond approved and W. K. Nichols, M. K. Cady and G. C. P. Sears were appointed to view and lay out said proposed new road and report at the next meeting.

At 12 o'dlock a recess was taken until 1 P. M.

AFTERNOON SESSION.

The Board reassembled at 1 P. M., members present same as at morning session.

On motion of Mr. Davis, the reports of Tim Kelley, Road Overseer of Knights Valley road district, and P. L. McGill, of Sonoma, were received and placed on file and their respective bills were allowed to wit, $96.25; $582.87.

The Board adjourned at 5 P. M., to Wednesday morning at 9 o'clock.

An Explanation

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

THE CITY TRUSTEES.

The Trustees of Sonoma met in regular monthly session last Wednesday evening Trustee McHarvey in the chair.

Trustees Poppe and Wegner and City Clerk Breitenbach were present and Trustees Lawrence and Manuel were absent.

The minutes of the last regular and special meetings were read and approved.

On behalf of the Committee on Fire Apparatus, Trustee Poppe reported that, owing to a lack of funds at the present time, the Committee could do nothing, and he asked for further time to make a final report. Mr. Poppe's request was granted.

A petition from W. Oxley, asking that he be permitted to use the City Pavilion for religious services during the month of October, was read and upon motion his request was refused, as the Pavilion is to be used for other purposes.

The following bills were then read and ordered paid: Wm. Parish, labor, $12.00; M. Mathews, labor, $2.00; G. W. Sparks, services, $21.00; M. A. Carter, sprinkling, $5.00; H. H. Granice, printing, $10.50. Total $50.50.

Trustee Wegner then called the attention of the Board to the necessity of moving the Plaza fence to within two or three feet of the curbing on the streets facing the same.

Trustee Poppe asked that the matter lay over until the next meeting in order that a full Board might discuss the subject. The motion prevailed.

The Street Committee was instructed to examine the condition of Second street east and to have the same repaired before the rainy season sets in.

The Board then adjourned.

SUPERIOR COURT PROCEEDINGS.

DEPARTMENT ONE—PRESSLEY, JUDGE.

Estate of William Manion—Final account settled and distribution ordered.

Estate of James Davis Thompson—Order setting aside homestead.

Estate of J. F. Ray—Final account settled and distribution ordered.

Estate of Mary Days—Administrator appointed, bond $1,300.

Estate of Mary Thurston—Continued to October 8th.

Estate of James McCumisky—Mrs. McCumisky appointed administratrix, bond $10,000.

Estate of Charles E. Lambert—Administratrix appointed, bond $3,700.

Estate of George G. Matheson—Sale of personal property confirmed.

Estate of Harry Staedler, minor—Order discharging bondsmen.

Estate of Abraham Lawton—Continued to October 8th.

Estate of David Boch—Order setting aside homestead.

The People vs. David Walsh and A. Mendosa—Demurrer argued and submitted; defendants remanded.

Martin O'Reilly vs. James Clark et al.—Motion for a new trial argued and submitted.

C. A. Kelly vs. W. S. Smith—Continued to October 8th.

DEPARTMENT TWO—RUTLEDGE, JUDGE.

Nancy E. St. Clair executrix, etc., vs. Early McPherson, minor, et al.—Continued to October 28th.

Michael Cleary vs. Bridget Cleary—Continued to October 15th.

V. Bulotte vs. Maggie McDonell—Continued to October 8th.

Domenica Casassa vs. C. L. Cardella—Continued to October 8th.

Patrick Cronin vs. Charles Carter—Order refusing to make any further order on ground of no authority.

E. B. Perrin et al. vs. Henry Coffee—Demurrer overruled; defendant ten days to answer after notice.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from diseases of the Throat and Lungs than any other. It is probable that everyone without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to proceed will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your Throat, Lungs or Notsrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

SATURDAY, OCTOBER 6, 1888.

OUR GRAVES.

A mound, a stone and violets
A bird song in the air,
A child that gathers flowers and lets
The wind play with its hair;
A field of wheat across the hedge
Rippled by fairy hands,
A silver stream that downward runs
To cheer the lower lands.

No mound, no stone, no violets—
A blue sea overhead,
A sobbing wind that ne'er forgets
Its chanting for the dead;
Beneath the stars on summer nights
That deep blue grave, how fair,
The while upon the shore the waves
Beat low, as if in prayer.

No mound, no stone, no violets,
No birds, no wave, no star,
A spot where memory forgets
What spring and summer are;
Deeper it lies than deep sea graves,
From land and sea apart,
A grave so sad and desolate!
A grave within the heart!

—Clarence T. Urmy.

Divorce Process in China.

A Chinese husband may divorce his wife for a number of causes—incompatibility, theft, drunkenness, disobedience, adultery or failure in duties toward husband or his parents. The process is very simple. The husband calls together his relatives and presents the case to them in the presence of his wife. The company vote on the question. If the ground for divorce is sufficient in their eyes the man and woman sign papers of separation by dipping their fingers in ink and making a mark at the foot of the agreement. If the divorced wife has parents or near relatives she goes and lives with them; if not, she is sold by the husband to a sort of matrimonial agent, who finds for her another husband or resells her to the keepers of low houses. A second or third wife is sometimes simply turned into the street by her husband without formal process of divorce.—New Orleans Times-Democrat.

Our Country Schoolhouses.

Are we a civilized people? Of course the answer depends upon the definition that is given to civilization. Judging by our country schoolhouses there is a chance for several degrees of advance before we reach high civilization. Garden and Forest has set out to reform our schoolhouse surrounding. In the west this reform is far less needed than in the east. But if there be anywhere hideous little toad like structures, set out in undrained spots of waste land, it is the old style schoolhouse. It ought in all cases to be placed in a snug little park, surrounded by abundant shade. A child's most important teachers are trees, flowers, brooks, hills and valleys and other objects in nature. These are the real character builders. If you wish the beautiful to grow in your children, surround them with beautiful sights and sounds.—Globe-Democrat.

How Many Hours to Sleep.

Up to the fifteenth year most young people require ten hours, and till the twentieth nine hours. After that age every one finds out how much he or she requires, though as a general rule, at least six or eight hours are necessary. Eight hours sleep will prevent more nervous derangements, however, than any medicines can cure. During growth there must be ample sleep if the brain is to develop to its full extent, and the more nervous, excitable or precocious a child is, the longer sleep should it get if its intellectual progress is not to come to a premature standstill or its life to be cut short at an early age.—Chicago Journal.

No Failure After All.

The late Rev. H. Ware, of Boston, was once in a curious predicament. In the middle of a sermon his memory failed him and he stopped abruptly. The pause seemed long to the preacher before he regained his thought, and he imagined the sermon to be a failure in consequence; but as he walked quietly up the aisle, a different impression was given to him. "How did you like the sermon?" asked one hearer of another. "Like it? It is the best sermon Mr Ware has ever preached. That pause was sublime!"—The Argonaut.

Giving Up a Career.

"I'm goin' to be a soldier, ma, when I grow up," said Bobby, as he crawled into bed, "and fight in wars and battles."

"All right, Bobby; now go to sleep."

In the morning she shook him for the fourth time and said:

"Bobby, you must get up; the idea of a soldier lying abed at this hour!"

"Well, ma," said Bobby, sleepily "I've changed my mind about being a soldier."—New York Sun.

A Popular Delusion.

The idea that the body "changes" every seven years, or at any other period, is a popular delusion. Read any text book of physiology and you will find that life is really a constant series of changes, which proceed every minute you live. Changes of chemical and physical kind are always going on within the body, and the very fact that you require food daily is a proof of this.—Herald of Health.

A Domestic Bonanza.

Husband—The weather probabilities predict fair weather, but the prediction is wrong; it is going to rain; my corns pain me frightfully, and that sign never fails.

Wife—I know it, so I shall not attempt to go down town. Your corns are such a comfort to me, John.—The Epoch.

Largest Iron Casting.

The largest iron casting ever attempted in America was recently made at Bethlehem, Pa. It was the base for the steel compressor to be used in the new gun steel works, and 124 tons of molten metal were used.—New York Sun.

The Uppermost Topic.

A railroad conductor says he can always tell what topic is uppermost in the public mind by listening to the talk of the passengers as he goes through the cars.—Boston Budget.

The best way to become an orator is to have something to say and then say it.—John J. Ingalls.

There are 40,000 reptiles in one room in the Smithsonian institute at Washington.

LEGAL.

Summons.

IN THE SUPERIOR COURT, IN AND for the County of Sonoma, State of California.

V. BULOTTI, Plaintiff,
vs.
Mrs. Maggie McDonell, widow of R. A. McDonell, John McDonell, Mary McDonell, daughter of Donald McDonell, Margery McDonell, Bell McDonell, Nancy McDonell, Christy McDonell, Alexander McDonell, son of Donald McDonald, Flora Kennedy, Catharine Kennedy, Flora McDonell, Maggie McDonnell, Mary J. McDonell, daughter of G. A. McDonnell, Alexander McDonnell, son of G. A. McDonnell, Donald McDonell, son of G. A. McDonell, Defendants.

Alias. Action brought in the Superior Court, in and for the County of Sonoma, State of California, and the complaint filed in the office of the Clerk of said Superior Court.

The People of the State of California send greeting to Mrs. Maggie McDonell, widow of R. A. McDonell, John McDonell, Mary McDonell, daughter of Donald McDonell, Margery McDonell, Bell McDonell, Nancy McDonell, Christy McDonell, Alexander McDonell, son of Donald McDonell, Flora Kennedy, Catharine Kennedy, Flora McDonnell, Maggie McDonell, Mary J. McDonell, daughter of G. A. McDonell, Alexander McDonell, son of G. A. McDonell, Donald McDonell son of G. A. McDonell, Defendants.

You are hereby required to appear in an action brought against you by the above-named plaintiff, in the Superior Court, in and for the said County of Sonoma, State of California, and to answer the complaint filed therein within ten days (exclusive of the day of the day of service) after the service on you of this summons—if served within this county; or, if served elsewhere, within thirty days.

The said action is brought to obtain a judgment of partition of Lot No. 52, situate in the Town of Sonoma, Sonoma county, State of California, according to the rights of the respective parties; or, if a partition cannot be had without material injury to those rights, then the premises be sold and the proceeds applied:

1st—To the payment of the general costs of this action.

2d—To the cost of reference.

3d—That the residue be divided between the parties in proportion to their respective interests, and for other proper relief.

All of which will more fully appear from plaintiff's amended complaint on file herein, to which special reference is hereby made.

And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said Plaintiff will apply to the Court for the relief demanded in the amended complaint.

Given under my hand and the seal of the Superior Court, in and for the said County of Sonoma, State of California, this 13th day of July, in the year of our Lord one thousand eight hundred and eighty-eight.

(SEAL.)

SCOTT'S EMULSION

OF PURE COD LIVER OIL AND HYPOPHOSPHITES

Almost as Palatable as Milk.

So disguised that it can be taken, digested, and assimilated by the most sensitive stomach, when the plain oil cannot be tolerated; and by the combination of the oil with the hypophosphites is much more efficacious.

Remarkable as a flesh producer.

Persons gain rapidly while taking it.

SCOTT'S EMULSION is acknowledged by Physicians to be the Finest and Best preparation in the world for the relief and cure of

CONSUMPTION, SCROFULA, GENERAL DEBILITY, WASTING DISEASES, EMACIATION, COLDS and CHRONIC COUGHS.

The great remedy for Consumption, and Wasting in Children. Sold by all Druggists.

OUR PREMIUMS For 1888.

THIS PAPER

—WITH—

THE SAN FRANCISCO

WEEKLY CALL

—OR—

THE SAN FRANCISCO

MORNING CALL

AS PREMIUMS FOR THE

PRESIDENTIAL YEAR.

THE SAN FRANCISCO WEEKLY CALL is a handsome eight-page paper. It is issued every Thursday, and contains all of the important news of the week, gleaned from every quarter of the globe, complete up to date of publication. It contains interesting special correspondence from all of the principal cities of the world and a vast amount of the best selected and original general literature. It furnishes the latest and most reliable financial news and market quotations, and gives special attention to horticultural and agricultural news, and is in every respect a first-class family paper, appealing to the interest of every member of the household. Every subscriber to THE WEEKLY CALL gets a

HANDSOME NEW MAP

Of California and Nevada

Beautifully printed in colors, showing every railroad, postoffice and town in the State, with tables of population, etc.

THE WEEKLY CALL will contain full reports of the

PRESIDENTIAL CAMPAIGN.

THE MORNING CALL

(SEVEN ISSUES A WEEK)

Is a live metropolitan daily. It has the LARGEST CIRCULATION and is recognized as being the LEADING NEWSPAPER of the Pacific Coast. Either of the above papers we will send postpaid as a premium on receipt of the following subscription prices for the combination:

The "Weekly Call" and Index-Tribune," $3 50 per year.

The "Daily Call" and "Index-Tribune," $7 per year.

Notice to the Public.

NOTICE IS HEREBY GIVEN THAT I WILL not be responsible for any debts contracted by any person other than myself. GEO. DIEBOLD.
Sonoma, July 28, 1888. jy28 4w

MISCELLANEOUS.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-Joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs**, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for all **Chronic Diseases of the**

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at **$1.00**, or Six Bottles for **$5.00.**

Send ten cents in stamps for Dr. Pierce's book on Consumption. Address,

World's Dispensary Medical Association,

663 Main St., BUFFALO, N. Y

INVENTION has revolutionized the world during the last half century. Not less among the wonders of inventive progress is a method and system of work that can be performed all over the country without separating the workers from their homes. Pay liberal; any one can do the work; either sex, young or old; no special ability required. Capital not needed; you are started free. Cut this out and return to us and we will send you free, something of great value and importance to you that will start you in business, which will bring you in more money right away, than anything else in the world. Grant outfit free. Address TRUE & Co., Augusta, Maine.

Of Interest to Ladies.

We will send a **FREE SAMPLE** of our wonderful specific for female complaints to any lady who wishes to test its efficacy before purchasing. Send 4 cents for postage. BAKER REMEDY CO., Box 104, Buffalo, N. Y.

HARPER'S MAGAZINE.

ILLUSTRATED.

HARPER'S MAGAZINE is an organ of progressive thought and movement in every department of life. Besides other attractions, it will contain, during the coming year, important articles, superbly illustrated, on the Great West; articles on American and foreign industry; beautifully illustrated papers on Scotland, Norway, Switzerland, Algiers, and the West Indies; new novels by William Black and W. D. Howells; novelettes, each complete in a single number, by Henry James, Lafcadio Hearn and Amelie Rives; short stories by Miss Woolson and other popular writers; and illustrated papers of special artistic and literary interest. The Editorial Departments re conducted by George William Curtiss, William Dean Howells, and Charles Dudley Warner.

Postage Free to all subscribers in the United States, Canada and Mexico.

The volumes of the MAGAZINE begin with the Numbers for June and December of each year. When no time is specified, subscriptions will begin with the Number current upon receipt of order.

Bound Volumes of HARPER'S MAGAZINE, for three years back, in neat cloth binding, will be sent by mail, postpaid, on receipt of $3 00 per volume, Cloth Cases, for binding, 50 cents each, by mail postpaid.

Index to HARPER'S MAGAZINE, Alphabetical, Analytical and Classified, for volumes 1 to 70, inclusive, from June, 1850, to June, 1885, one vol., 8vo. Cloth, $4 00.

Remittances should be made by Postoffice Money Order or Draft, to avoid chance of loss.

Newspapers are not to copy this advertisement without the express order of Harper Brothers.

Address. HARPER BROTHERS, New York.

The BUYERS' GUIDE is issued March and Sept., each year. It is an encyclopedia of useful information for all who purchase the luxuries or the necessities of life. We can clothe you and furnish you with all the necessary and unnecessary appliances to ride, walk, dance, sleep, eat, fish, hunt, work, go to church, or stay at home, and in various sizes, styles and quantities. Just figure out what is required to do all these things COMFORTABLY, and you can make a fair estimate of the value of the BUYERS' GUIDE, which will be sent upon receipt of 10 cents to pay postage,

MONTGOMERY WARD & CO.
111-114 Michigan Avenue, Chicago, Ill.

1888.

Harper's Bazar.

ILLUSTRATED.

HARPER'S BAZAR is a home journal. It combines choice literature and fine art illustrations with the latest intelligence regarding the fashions. Each number has clever serial and short stories, practical and timely essays, bright poems, humorous sketches, etc. Its pattern sheet and fashion-plate supplement will alone help ladies to save many times the cost of the subscription, and papers on social etiquette, decorative art, house-keeping in all its branches, cookery, etc., make it useful in every household, and a true promoter of economy. Its editorials are marked by good sense, and not a line admitted to its columns that could offend the most fastidious taste.

The Volumes of the BAZAR begin with the first Number for January of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of order.

Bound Volumes of HARPER'S BAZAR, for three years back, in neat cloth binding, will be sent by mail, postage paid, or by express, free of expense (provided the freight does not exceed one dollar per volume), for $7.00 per volume.

Cloth Cases for each volume, suitable for binding, will be sent by mail, post-paid, on receipt of $1.00 each.

Remittances should be made by Post-office Money Order or Draft, to avoid chance of loss.

Newspapers are not to copy this advertisement without the express order of Harper & Brothers.
